

Strengthening the links between European marine fisheries science and fisheries management

February 7-8, 2008

ATHENS

Agenda of meeting

Meeting room :
AMALIA HOTEL ATHENS
10 Amalias Avenue,
Athens

WP7 – Regional case study in the Mediterranean Sea

The objectives are :

- *identifying the existing programs and the planning for the four next years by the different national institutes,*
- *having the requirement of the funding agencies about their priorities in research,*
- *building a common, comprehensive, multinational program in this area to increase cooperation, to avoid duplications and to fill the main gaps,*
- *preparing a MoU for cooperation.*

February 7, 2008

14.30 – 17.00

14:30

Welcome and introduction to meeting
General informations on MariFish regional case study

15.00

Presentations of research areas / Project(s) in the Mediterranean Sea
Identification country by country national priorities for research topics on fisheries in the Mediterranean Sea

February 8, 2008

9.00 – 13.30

09.00

Identification of scientific priorities - Analyse of complementarity
Toward a common MariFish programme

12.30

Conclusion of the first Med. meeting

13.30

Closure of the meeting

February 7-8, 2008

ATHENS

*Presentations of research areas /
Project(s) in the Mediterranean Sea*

Spain

Scientific Presentations :

- Summary of the Mediterranean fisheries research program of the IEO
 - ☞ Christobal SUANZES - IEO

- “ Small pelagic fisheries”
 - ☞ Luis QUINTANILLA - IEO

France

Scientific Presentations :

- “ Contamination of the trophic web for pelagic, demersal fishes and marine mammals”
 - ☞ Capucine MELLON - Ifremer

- “ Biology and ecology of the Bluefin tuna ”
 - ☞ Jean Marc FROMENTIN - Ifremer

Greece

Scientific Presentations :

- “ Small pelagic fisheries”
 - ☞ Athanasios MACHIAS

- “ Large pelagic fisheries”
 - ☞ George TSERPES

February 7-8, 2008
